Committee Report (Substituted)

### AUTHOR'S / SPONSOR'S STATEMENT OF INTENT

S.B. 746 as introduced is designed to address the growing crisis of the civil commitment of sexually violent predators program that could result in a major threat to the public safety in Texas. The civil commitment process is designed to provide a safety net for high risk repeat sex offenders who have a legislatively created diagnoses of a brain amorality that could lead to future sex assaults. Horrible mismanagement of the Office of Violent Sex Offender Management (OVSOM) has led to the total replacement of that office's management and restructure of its oversight board. Among the findings by the State Auditor's Office are:

1. OVSOM did not plan for treatment services.
2. OVSOM did not monitor contractor performance.
3. OVSOM has not implemented a budgeting process to identify or plan for services it provides, and it did not ensure that funds would be available to meet its needs.
4. OVSOM did not have adequate controls over access to the system that it uses to manage case managers' caseloads. Auditors identified 14 former employees and contractors who still had access to the case management system, and two of those individuals had administrator access.
5. OVSOM did not have controls over the management of certain contracting processes.
6. By not planning for the transportation services, OVSOM did not develop the contracts properly and was not maximizing its use of state funds.
7. OVSOM did not have policies and procedures addressing conflicts of interest.
8. OVSOM did not have contingency plans if a provider was no longer able to provide housing services.
9. OVSOM had no evidence of its monitoring of the vendors that house sexually violent predators through memorandums of understanding.
10. OVSOM had not implemented certain processes for budgeting, review of expenditures, fee processing, and access to its case management system. Those issues hindered OVSOM's ability to maximize the use of state funds.
11. Auditors tested 115 OVSOM expenditures totaling \$1,110,140. For 45 (39 percent) of those 115 expenditures, OVSOM did not have adequate supporting documentation for the associated services and/or the services provided were not specified on the contract.
12. OVSOM also did not have policies and procedures for its review of expenditures, and it could not specify which staffs were responsible for reviewing invoices from transportation contractors.
13. Auditors could not find evidence that OVSOM used the revenue from the fees it had collected to offset the cost of GPS, as statute requires.

The court that conducts the civil commitment trial is a specialty court, the 435th District Court of Montgomery County, with state employees serving as Special Prosecutors and the Texas Board of Criminal Justice, Office of State Counsel for Offenders as defense attorneys. The court is currently in complete disarray. Public statements by the elected judge from Montgomery County have rendered him ineffective and led to his recusal from hearing cases that he is designated by statute to hear. This is having a negative impact on the entire Second Administrative Judicial Region impacting 35 other counties.

Also, due to the above mismanagement issue, all major vendors who currently house these individuals have notified OVSOM that they will no longer house them after August 2015.

The legislature can fix these problems, wait until the federal courts step in, or abolish the program. Considering that we have over 25,000 sex offenders in prison and approximately 1,800 discharging their sentences each year, and over 380 already civilly committed, a public safety crisis is in our very near future. (Original Author's/Sponsor's Statement of Intent)

C.S.S.B. 746 amends current law relating to the civil commitment of sexually violent predators; amends provisions subject to criminal penalties.
