Questions

What is Mental Health?

• "A mental illness is a condition that impacts a person's thinking, feeling or mood and may affect his or her ability to relate to others and function on a daily basis. Each person will have different experiences, even people with the same diagnosis."

- National Alliance on Mental Illness (NAMI)

What is Mental Health?

- ADHD (Attention Deficit Hyperactivity Disorder)
- Anxiety Disorders
- Autism
- Bipolar Disorder
- BPD (Borderline Personality Disorder)
- Depression
- Dissociative Disorders
- Eating Disorders
- OCD (Obsessive-compulsive Disorder)
- PTSD (Posttraumatic Stress Disorder)
- Schizoaffective Disorder
- Schizophrenia
- Substance abuse

National Primary Care Psychiatry

- 80% of antidepressants prescribed by Primary Care Providers (PCPs)
- Depression goes undetected in 50% of depressed individuals
- Only 20-40% of people cared for by PCP's have substantial improvement in 6 months
- Over half of PCP's report difficulty finding behavioral health referral
- Only ½ people referred to mental health professional follow-through with referral

Impact of Mental Disorders

- Untreated mental health paired with chronic disease results in higher morbidity rates
- Patients with anxiety go to the ER or physician offices 3-4x more
- Treatments of mental illness are effective 60-80% of the time

Costs of Untreated Mental Disorders

- Disability
- Loss of productivity
- Unemployment
- Reduced life expectancy

Questions

Perspectives from the Field

Wrong Time

Psychiatry Workforce

- Shortage of providers
- Aging workforce
- Ability to train our own
- Care through multidisciplinary team

Costs of Services

Average cost per day of communitybased care is \$12 compared to \$986 for Emergency Room visit

(Texas Conference of Urban Counties 2011)

Austin 2010 (Pre-1115 Waiver)

- Inpatient psychiatric beds were full
- Admitted patients couldn't be seen at a lower level of care
- Psychiatric assessment didn't come until after admission

Continued Issues in Austin

- Access to psychiatric care
- Provider shortages
- Variability across Texas counties for involuntarily mental health care
- Hand-offs and coordination between providers, social service agencies and criminal justice system
