ii. The informational purposes text in the second paragraph of Section (a) of this rider has no effect, and is replaced by the following: For informational purposes, total amounts identified for strategies in this subsection from fee generated general revenue total \$19,387,816 in fiscal year 2018 and \$19,677,172 in fiscal year 2019 for direct costs and indirect administration and \$5,998,335 in fiscal year 2018 and \$6,154,618 in fiscal year 2019 for "other direct and indirect costs". contingent on the transfer required in HB 572, or similar legislation. The Department of Agriculture may temporarily utilize additional general revenue funds in an amount not to exceed \$400,000 each fiscal year from projected revenues from fees collected under Section 76.044, Agriculture Code for the required transfer to the pesticide disposal fund at the beginning of each fiscal year. These funds shall be utilized only for the purpose of temporary cash flow needs. The transfer and reimbursement of funds shall be made under procedures established by the Comptroller of Public Accounts to ensure all borrowed funds are reimbursed to the Treasury on or before August 31st each fiscal year. Appropriations from the pesticide disposal fund shall be used to implement the provisions of the enacted legislation relating to the disposal of pesticides.

iv. In the event that actual and/or projected revenue collections in strategies above are insufficient to offset the costs identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority provided above to the affected strategy to be within the amount of revenue expected to be available.
