Fiscal Analysis

The bill would amend Chapter 2256 of the Government Code, regarding public funds investment. The bill would authorize governmental entities to invest public funds in interest-bearing banking deposits that are guaranteed or insured by the Federal Deposit Insurance Corporation or the National Credit Union Share Insurance Fund. The bill would specify that to maintain eligibility to receive funds from and invest funds on behalf of an entity under Chapter 2256, an investment pool must furnish to the investment officer of the entity the pool's policy regarding holding deposits in cash. The bill would modify criteria for determining if the chapter applies to an institution of higher education.

The bill would amend Chapter 171 of the Tax Code, regarding the franchise tax, to expand the historic structure franchise tax credit to include public universities and university systems.

Methodology

Because the financial impact of investment decisions authorized by the bill is unknown, the fiscal impact to state agencies from those provisions is unknown.

According to the Comptroller of Public Accounts, expanding the historic structure franchise tax credit would result in a franchise tax revenue loss of \$1 million per year and an insurance premium tax revenue loss of \$1 million per year.

Local Government Impact

According to the Texas Association of Counties, the fiscal impact cannot be determined.
