**IN RE: SB1107** by Davis (Relating to the vaccination against bacterial meningitis of first-time students at public and private or independent institutions of higher education.), **As Introduced**

**No significant fiscal implication to the State is anticipated.**

The bill modifies existing law which requires a vaccination against bacterial meningitis for first-time students at public or private institutions who live in on-campus housing. The proposed change makes the vaccination mandatory for all students and that vaccination must have occurred at least 10 days before the first day of the semester/term in which the student initially enrolls. The change applies to first-time students enrolling on or after January 1, 2012. Provisions of the bill would be implemented within existing resources.

**Local Government Impact**

No fiscal implication to units of local government is anticipated.
