The plan must be designed on an individual basis to provide the best opportunity for each student to attain that readiness.

(b) [Added by this Act] Each institution of higher education shall establish a program to advise students regarding coursework and other means by which students can develop the academic skills required to successfully complete college-level work.

SECTION 1.07. Sections 51.3062(i), (i-2), and (t), Education Code, are transferred to Subchapter F-1, Chapter 51,
Education Code, as added by this Act, redesignated as Section 51.336, Education Code, and amended to read as follows:

Sec. 51.336. DEVELOPMENTAL EDUCATION. (a) An institution of higher education may refer a student to developmental coursework, including basic academic skills education, as considered necessary by the institution to address a student's deficiencies in the student's readiness to perform freshman-level academic coursework, except that the institution may not require enrollment in developmental coursework with respect to a student previously determined under Section 51.338(d) [Subsection (q-1) or determined] by any institution of higher education to have met college-readiness standards.

(b) An institution of higher education that requires a student to enroll in developmental coursework must offer a range of developmental coursework, including online coursework, or instructional support that includes the integration of technology to efficiently address the particular developmental needs of the student.

(c) Each institution of higher education shall develop and implement for developmental coursework, other than adult basic education or basic academic skills education, developmental education using a corequisite model under which a student concurrently enrolls in a developmental education course and a freshman-level course in the same subject area for each subject area for which the student is referred to developmental coursework. Each institution shall ensure that at least 75 percent of the institution's students enrolled in developmental coursework other
than adult basic education or basic academic skills education are enrolled in developmental coursework described by this subsection.

(d) If a student fails to satisfactorily complete a freshman-level course described by Subsection (c), the institution of higher education shall:

(1) review the plan developed for the student under Section 51.335(a) and, if necessary, work with the student to revise the plan; and

(2) offer to the student a range of competency-based education programs to assist the student in becoming ready to perform freshman-level academic coursework in the applicable subject area.

(e) [4-2)] An institution of higher education must base developmental coursework on research-based best practices that include the following components:

To allow a student to complete any necessary developmental coursework in the most efficient and cost-effective manner, the board shall encourage institutions of higher education to offer various types of developmental coursework that address various levels of deficiency in readiness to perform college coursework for which course credit may be earned, as determined on the basis of assessments as described by Section 51.334. The types of developmental coursework may include:

1. course-based programs;
2. non-course-based programs, such as advising programs;
3. module format programs;
4. competency-based education programs;
5. basic academic skills education, if applicable to the student; and
6. subject to the requirements of Subsection (c), programs under which the student is pairing or taking concurrently a developmental education course and another course in the same subject area for which course credit may be earned.

An institution of higher education shall determine when a student is ready to perform freshman-level academic coursework. The institution must make its determination using learning outcomes for developmental education courses developed by the board based on established college and career readiness standards and student performance on one or more appropriate assessments.

SECTION 1.09. Sections 51.3062(p), (q), (q-1), (q-2), and (s), Education Code, are transferred to Subchapter F-1, Chapter 51, Education Code, as added by this Act, redesignated as Section 51.338, Education Code, and reordered and amended to read as follows:

(b) A student who has achieved a score set by the board on the SAT or ACT is exempt from the requirements of this subchapter. An exemption under this subsection is effective for the five-year period following the date a student takes the test and achieves the standard set by the board.

(c) A student who has achieved scores set by the board on the questions developed for end-of-course assessment instruments under Section 39.0233(a) is exempt from the requirements of this subchapter. The exemption is effective for the three-year period following the date a student
takes the last assessment instrument for purposes of this subchapter [section] and achieves the standard set by the board. This subsection does not apply during any period for which the board designates the questions developed for end-of-course assessment instruments under Section 39.0233(a) as the primary assessment instrument under this subchapter [section], except that the three-year period described by this subsection remains in effect for students who qualify for an exemption under this subsection before that period.

The commissioner of higher education by rule shall establish the period for which an exemption under this subsection is valid.

(e) [§1-2] A student who successfully completes a college preparatory course under Section 28.014 is exempt from the requirements of this subchapter [section] with respect to the content area of the course, provided that the student satisfies the requirements of Subsection (f) of this section. The exemption is effective for the two-year period following the date the student graduates from high school[, and the student must enroll in the student's first college-level course in the exempted content area in the student's first year of enrollment in an institution of higher education. If the student earns less than a C in the
student's first college-level course in the exempted content area, the institution shall advise the student of non-course-based options for becoming college ready, such as tutoring or accelerated learning. The exemption applies only at the institution of higher education that partners with the school district in which the student is enrolled to provide the course, except that the commissioner of higher education by rule may determine the manner in which the exemption may be applied to institutions of higher education other than the partnering institution.

(f) A student receiving an exemption under Subsection (e) must enroll in a college-level course in the exempted content area during the student's first year of enrollment at an institution of higher education occurring after the student qualifies for the exemption. If the student earns a grade below a "C" for the course, the institution shall advise the student of non-course-based options for attaining college readiness, such as tutoring or accelerated learning.

(g) The board [Texas Higher Education Coordinating Board] shall:

(1) collect and analyze data regarding the effectiveness of college preparatory courses provided under Section 28.014 in assisting students to become ready to perform freshman-level academic coursework, as measured by the rate at which students receiving an exemption under Subsection (e) successfully complete the course described by Subsection (f); and

(2) in November of each even-numbered year, submit a [students' successful completion of the first college-level course
in the exempted content area. The board shall report of the
board's [its] findings to [all partnering institutions of higher
education and independent school districts of each college
preparatory course evaluated, as well as] the governor, the
lieutenant governor, the speaker of the house of representatives,
the standing legislative committees with primary jurisdiction over
higher education, and each institution of higher education and
