

LEGISLATIVE BUDGET BOARD
Austin, Texas

FISCAL NOTE, 85TH LEGISLATIVE REGULAR SESSION

April 24, 2017

TO: Honorable Dan Huberty, Chair, House Committee on Public Education

FROM: Ursula Parks, Director, Legislative Budget Board

IN RE: **HB1886** by Miller (Relating to dyslexia screening and testing, the employment of dyslexia specialists by regional education service centers, and the development by the Texas Education Agency of a list of training opportunities for educators regarding dyslexia.), **Committee Report 1st House, Substituted**

No significant fiscal implication to the State is anticipated.

The bill would amend the Education Code to require screening or testing of all students for dyslexia upon enrollment in kindergarten and testing each student in the first grade at the end of the school year. The bill would require each regional education service center to employ a dyslexia specialist and would specify persons eligible for the position. The bill would require TEA to annually develop a list of training opportunities that comply with the knowledge and practice standards of an international organization on dyslexia and enable an educator to understand and recognize dyslexia and implement certain evidence-based instruction. The bill would require at least one training opportunity to be available online. The bill would take effect immediately if passed with necessary voting margins, or September 1, 2017, and would apply beginning school year 2017-18.

The Texas Education Agency indicates the agency could implement the provisions of the bill using existing resources.

Local Government Impact

School districts and open-enrollment charter school would incur costs associated with the required screening or testing at kindergarten and first grade. Assuming that most districts would choose to screen students, the cost of a typical dyslexia screener ranges from \$2 to \$10 per student. According to TEA, there were 376,814 kindergarten students and 409,977 first grade students enrolled in school year 2015-16. Assuming a cost of \$5 per student, the statewide local cost to assess all kindergarten students would be \$1.8 million (\$5 per student x 376,814 students), with additional cost of \$2 million (\$5 per student X 409,977 students) to assess all first grade students. TEA indicates that many districts already use certain reading assessments that may also be used to as a dyslexia screener; therefore, these costs would vary among districts.

Additionally, districts and charters may opt to test students for dyslexia. The cost of a typical dyslexia test range from \$500 to \$1,000 per student. Cost related to testing would also vary among districts depending on the number of students tested.

Education Service Centers (ESCs) may incur additional costs related to employing a dyslexia specialist with the qualifications as specified in the bill; however, TEA indicates that each ESC already employs a dyslexia specialist so these costs would be minimal.
