

Dr. Robert Bredt Biography

Robert Bredt, M.D., is the medical director for the Texas Medical Board, a position he has held since 2012. He is a board certified anatomic and clinical pathologist with added qualification in cytopathology. Dr. Bredt graduated from the Washington University School of Medicine and completed his internship and residency program at the University of Texas Health Science Center in San Antonio. As the TMB medical director, Dr. Bredt's duties include providing medical guidance to board staff, coordinating the efforts of the board's medical experts and assisting in the development of medical board rules. Dr. Bredt's professional career has been dedicated to public health and laboratory quality. Before coming to the Medical Board, he was in cytopathology practice with the Texas Department of State Health Services for 19 years in San Antonio, TX.
